

Extension of your licence!

Courses are on www.EASA66.org

B1 to B2

I recommend to take the entire module 13, as it is easier to pass than the conversion module!

For most NAAs module 7.4 is part of the OJT!

Extension of Category B1 to include Category B2

Note 1: Table 2 normally applies to full Category B1 AML holders. If the licence holder has a limitation which excludes only Avionic LRUs, the full B2 level Module 5 examination will be set instead of the Module 5 conversion examination shown below. If successfully passed, this module will qualify the holder for removal, on application, of the B1 Avionic LRU limitation.

Table 2

Category Held	Module	Modules or part modules required	No of Questions
B1-1	4	Module 4.1.1b all, 4.1.2 all, 4.1.3b all, 4.2 all, 4.3b all.	20
	5	Module 5.1 to 5.3 all, 5.6b all, 5.7 to 5.10 all, Module 7.4 all.	40
	13	Module 13.1c all, 13.3 & 13.4 all, 13.6 all, 13.8 all.	100

Note: Table 3 applies to full Category B2 AML holders only. Category B2 licence holders with any limitations must remove those limitations first by taking the appropriate conversion examinations or can qualify for B1 by following the conventional route and be examined on the complete modules required for B1.

Table 3

To Category	Module	Modules or part modules required	No of Questions
